COLLECTION

Nel 1959 Marani Giorgio avvia una piccola attività artigiana denominata "Tappezzeria Marani Giorgio" che nel corso degli anni si è specializzata in produzione per conto terzi di poltroncine e imbottiti.

Successivamente nel 1985 con il subentro dei figli, la piccola tappezzeria si trasforma in M.PIU' che oltre alla produzione aggiunge anche la progettazione, realizzando in brevissimo tempo una propria linea di poltrone e imbottiti per l'ufficio e il contract . La missione che oggi sia i figli che i nipoti si sono prefissati, è quella di continuare sulla strada del fondatore, producendo articoli di design e alta qualità artigianale riconosciuta nel mondo come il " Made in Italy".

In 1959 Marani Giorgio started a small artisanal activity called "Tappezzeria Marani Giorgio" which, with the passing of time, has specialized in the production of armchairs and upholstered seats on behalf of third parties.

Successively, in 1985, with his sons' takeover, the small upholstery factory became "M.PIÙ", which added the design projects as an addition to the production. This innovation led to the creation of its own line of armchairs and upholstered seats for the office and specific solutions tailored for hotels, bars and restaurants.

The sons' and the grandsons' today mission is to stay on the path laid by the founder and to produce designer goods of high artisanal quality, recognised in the world as "Made in Italy".

Vision office

Linea essenziale e sobria per questa gamma di poltrone confortevoli e versatili, braccioli in alluminio lucido o imbottiti in tessuto o pelle naturale.
Veste con eleganza e raffinatezza le esigenze dell'ufficio moderno e delle sale riunioni.

An essential and sober line for this range of comfortable and versatile armchair, with polished aluminum armrests or upholstered in fabric or natural leather. It fits with elegance and sophistication in the needs of the modern office and meetings.

Per ambienti di lavoro direzionali, Vision è proposta con base in alluminio lucido, ruote cromate ed un funzionale meccanismo.

In management areas Vision is offered with polished aluminium base, chromed castors and a multifunction mechanism.

Vision

home

La naturalezza qui casca a pennello. I braccioli ed il cuscinetto impreziosiscono il Design di Vision Home rendendola ancora più morbida e piacevole alla vista e al tatto. I rivestimenti eleganti e raffinati evidenziano i dettagli del prodotto.

Naturalness falls here like a glove. The armrests and the buffer embellish the design of Vision Home and make it even softer and pleasant to the eye and touch. The elegant and refined coatings highlight the product details.

Juliette

Ispirata al design classico della metà del ventesimo secolo, Juliette offre comfort e funzionalità. Juliette è una sedia multifunzione la cui scocca può essere unita a una varietà di basi diverse fornendo ottime soluzioni per molteplici campi di utilizzo, dall'ufficio più tecnologico e prestazionale passando al contract e all'ambiente casa.

Inspired by the classic design of the mid-twentieth century, Juliette offers comfort and functionality. Juliette is a multi-purpose chair whose shell can be combined with a variety of different bases providing excellent solutions for multiple fields of use, from the most technological and performance office to the contract and home environment.

Per ambienti di lavoro direzionali, Juliette è proposta con base in alluminio lucido, ruote cromate ed un funzionale meccanismo.

In management areas Juliette is offered with polished aluminium base, chromed castors and a multifunction mechanism.

la perfetta simbiosi fra la struttura cromata e la parte rivestita evidenzia l'elegante design. Leggera nella linea ma solida nell'uso è idonea per usi prolungati.

the perfect harmony between the chromed steelframe and the elegance of the shell. Light in design but solid construction make it ideal for heavy duty use.

Con rivestimento Secret, Extrema AU e
vera pelle, non è possibile rivestire la

New project

Bio

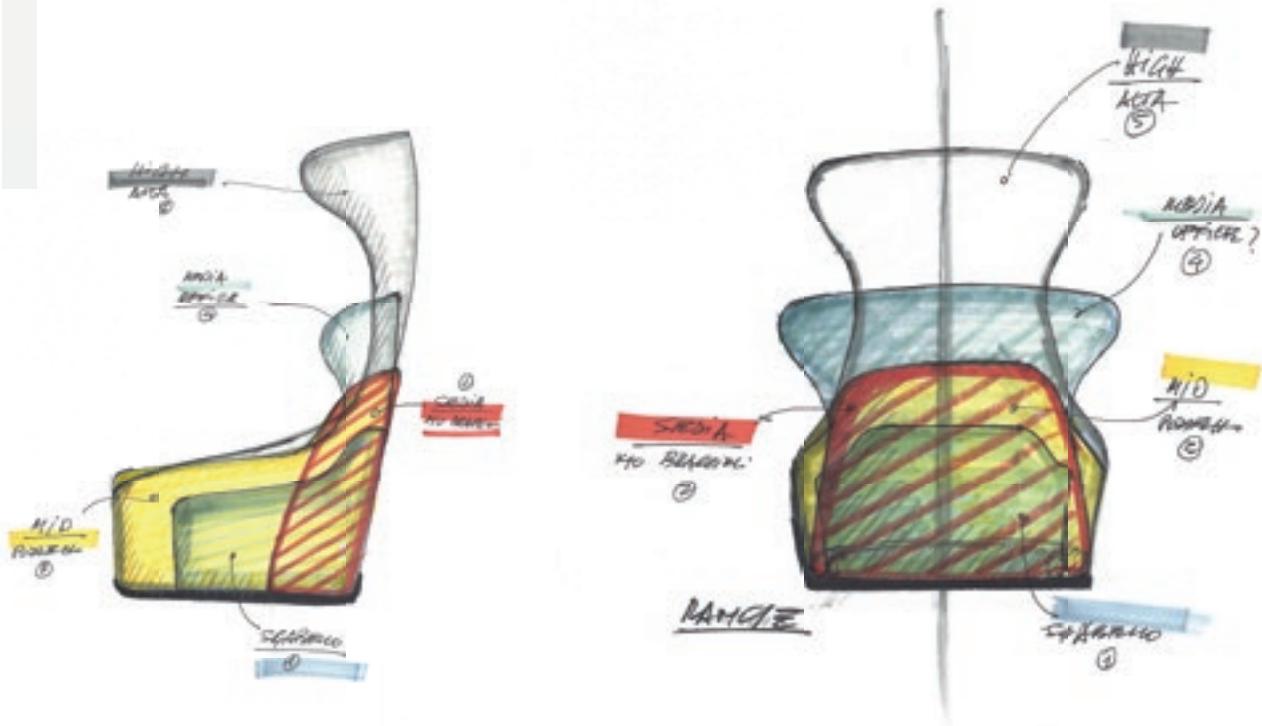

Il concetto su cui si basa il progetto BIO è quello di ridurre al massimo l'impatto ambientale sia nelle fasi di produzione che nella scomponibilità a "fine vita". Abbiamo deciso di utilizzare ABS riciclato al 100% per lo sviluppo della scocca, mentre il sedile è realizzato in legno lamellare.

La forma della poltrona è estremamente pulita e leggera, la linea avvolgente garantisce un ottimo contenimento e un comodo appoggio per le braccia. Il sottile materiale plastico della struttura accoppiato con l'imbottitura in PU, lo rendono leggermente flessibile, permettendogli di assecondare i movimenti dell'utilizzatore, migliorandone il comfort.

The concept on which the BIO project is based is to minimize the environmental impact both in the production phases and in the "end-of-life" decomposition. We decided to use 100% recycled ABS for the development of the shell, while the seat is made of laminated wood.

The shape of the armchair is extremely clean and light, the enveloping line guarantees excellent containment and a comfortable support for the arms. The thin plastic material of the structure coupled with the PU padding make it slightly flexible, allowing it to accommodate the user's movements, improving comfort.

The concept

Cocoon

Linee semplici ed eleganti che si fondono nel profilo del bracciolo in alluminio lucido.
La forma accogliente ed i pregiati materiali risaltano il grande confort offerto.

Simple and elegant lines reflect the profile of the polished aluminum arm.
The shape and high quality of materials used define the comfort on offer.

Cocoon rispetta i più recenti studi sull'ergonomia, su tutte le versioni girevoli il movimento fra sedile e schienale è controllato da un'evoluto ed efficiente meccanismo sincronizzato. L'ampia escursione di 20° consente sia posizioni operative che di relax.

Cocoon respects all recent studies made on ergonomics, with all swivel chair models the movement of the seat and back is controlled with a new and efficient synchronised mechanism. Sufficient movement of 20 degrees allows a good working as much as a relaxing position.

Come optional può essere richiesto il logo personalizzato posto sul lato interno del bracciolo

You can also have your own logo put on the inside of the arm as an option

Bloccaggio meccanismo sincro in 5 posizioni, con sistema antishock

Lockimechanism in 5 positions, with antishock system

Regolazione in altezza tramite pompa a gas

Control height adjustment thru gas lift

Leva girevole per la regolazione individuale dell'intensità (da 40 a 120kg.)

Rotating handle to control individual intensity (from 40 kg to 120 kg)

In versione fissa si presenta con un'elegante struttura cromata le cui linee si armonizzano con quelle dello schienale. Idonea sia per ospiti che per tavoli riunione.

The fixed version comes on an elegant chromed frame whose lines harmonise with the back design of the chair. This model is ideal for meeting and board rooms.

Varia

Le poltrone per ufficio e direzionali Varia si contraddistinguono per le linee pulite e moderne. Il connubio tra materiali preziosi come l'alluminio e il rivestimento in rete traspirante, pelle o tessuto donano una visione contemporanea all'ufficio. Disponibile in 5 diverse linee di prodotto, alta, bassa e slitta, è adatta dall'ufficio direzionale alla postazione operativa più tecnica.

Varia office and executive armchairs are characterized by clean and modern lines. The combination of precious materials such as aluminum and the breathable mesh, leather or fabric covering, give a contemporary vision to the office. Available in 5 different product lines, high, low and cantilever, it is suitable from the executive office to the most technical workstation.

Varia Elegance

Varia | **99**

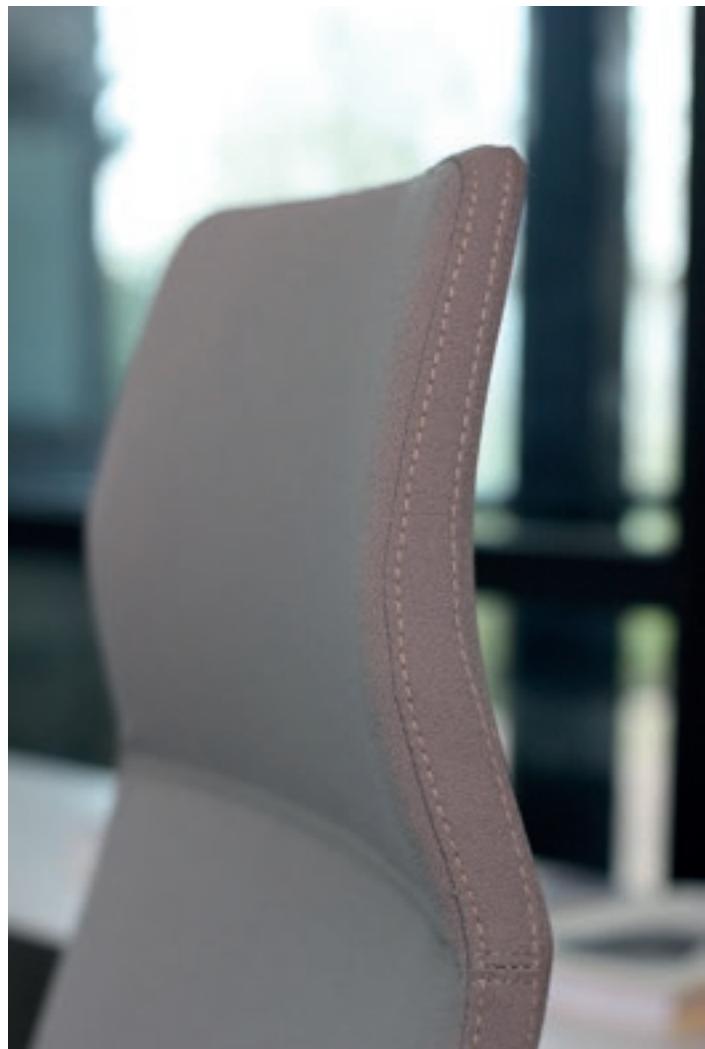

La decorazione sartoriale viene richiamata attraverso due bottoni che arriccianno la parte centrale della zona posteriore dello schienale creando un gioco di forme molto simili a un abito.

The sartorial decoration is recalled through two buttons that curl the central part of the back area creating a game very similar to a dress.

Varia eleganza coniuga la decorazione sartoriale dei rivestimenti con la meccanica di schienale e braccioli, offrendo un prodotto tecnico e estremamente estetico.

Varia elegance combines the sartorial decoration of the coverings with the mechanics of back and arms, offering a technical and extremely aesthetic product.

Varia Classic

106 | Varia

Varia Classic nasce dall'idea di coniugare la decorazione sartoriale bicolore con materiali strutturali di schienale e braccioli, offrendo un prodotto tecnico e estetico, mantenendo i requisiti richiesti nella norma europea EN1335.

Varia Classic was born from the idea of combining the two-color sartorial decoration with structural materials of back and armrests, offering a technical and aesthetic product, maintaining the requisites required by the European standard EN1335.

Il segno distintivo di Varia Classic è la decorazione sullo schienale, uno schema decorativo che esalta le qualità di tappezzeria della poltrona unendo sapientemente materiali differenti per creare un decoro strutturale.

The distinctive feature of Varia Classic is the decoration on the backrest, a decorative scheme that enhances the upholstery quality of the armchair by knowingly combining different materials to create a structural decoration.

Meeting

Il design e le proporzioni ne fanno una poltroncina versatile, utilizzabile sia come postazione operativa, tavolo riunioni o smart working. Inoltre lo schienale in rete traspirante e il sedile con le cover colorate in versione sfoderabile garantiscono una facile pulizia anche negli ambienti con elevato utilizzo.

The design and proportions make Meeting a versatile armchair, which can be used both as an operative station, meeting table or smart working. In addition, the back in breathable mesh and the seat with colored covers in the removable version guarantee easy cleaning even in environments with high use.

Trim

La forma ergonomica dello schienale appositamente disegnato sostiene delicatamente la zona pelvica riducendo la rotazione del bacino e della colonna vertebrale. La forma della postura è stata progettata per offrire all'utente un benefico supporto lungo la spina dorsale e nella zona lombare con una maggior distribuzione omogenea del peso. L'angolo frontale della seduta riduce e/o annulla la pressione e problemi di circolazione sanguinea delle cosce.

With its ergonomically designed back shape it gently supports the pelvic girdle and reduces the tendency of the pelvis to rotate backwards when the user sits down. The shape of the posture seat has been designed to encourage the user to take advantage of the special back, in addition to providing superior support characteristics for even weight distribution. A distinct waterfall front-edge profile to the contoured, posture seat reduces the pressure under the thighs.

Pepita lounge

La seduta Pepita è caratterizzata dalla dinamicità delle curve, linee fluide ed avvolgenti, che contraddistinguono l'intera seduta. La particolare forma della scocca, l'inclinazione e l'altezza della seduta sono state pensate per centrare perfettamente il concetto di "Smart Lounge". la base è disponibile in 3 versioni, con slitta in tondino di acciaio cromato o verniciato nero, oppure con base a tromba con colonna girevole e sistema autoallineante, infine un trespolo a 4 gambe in legno di faggio con finitura naturale o Wengè.

The Pepita seat is characterized by the dynamism of curves, flowing and enveloping lines, which characterize the entire chair. The particular shape of the body, the inclination and the height of the seat have been designed to perfectly center the concept of "Smart Lounge". the base is available in 3 versions, with a sled base in chromium-plated or black-painted steel, or with a horn base with a revolving column and self-aligning system, and finally a 4-legged beechwood stand with a natural or Wengè finish.

Pepita

design Manuel Pampani

Un pensiero lineare, un approccio tecnico deciso e onesto, servono a ripensare la sfera, la più pura delle geometrie. Queste, sono le basi di un design classico e allo stesso tempo non convenzionale. Dentro o fuori casa.

We used a linear design and a determined, honest technical approach to reevaluate the sphere, the purest geometry. These are the bases for a classic design, which is, at the same time, also unconventional. Inside or outside house.

Pepita table

design Manuel Pampani

La ricerca di essenzialità passa attraverso un processo di “minimal wireframing” della semisfera che personalizza lo spazio senza snaturarlo, avvalendosi di una struttura architettonica aerea e di uno stile grafico inconfondibilmente classico.

The search for simplicity goes through a process of “minimal wireframing” of the hemisphere that personalizes the space without distorting it, using an aerial architectural structure and, unmistakably, a classic graphic style.

Papery table

Tavolino disponibile in 3 dimensioni con gambe in legno e piani in nobilitato, la linea leggera e morbida del piano sembra far galleggiare il tavolo come carta sorretta solo dalla struttura delle gambe. Le colorazioni dei piani in grigio ciottolo o cashmere abbinate alle gambe in faggio naturale o colorazione wengé, completano e rafforzano la versatilità del prodotto.

Coffee table available in 3 sizes with wooden legs and melamine tops, the light and soft line of the floor seems to float the table as a paper supported only by legs structure. The colors gray pebble or cashmere matched with natural beech legs or wengé color, complete and confirm the versatility of the product.

La collezione di coffee table, affida al metallo il ruolo di protagonista strutturale che si evidenzia nell'incrocio della base e il vetro trasparente ne esalta il design e l'eleganza.

The collection of coffee table entrusts the role of structural protagonist to the metal, which is underlined in the intersection of the base, while the transparent glass exalts the design and the elegance of it.
